WHAT HAPPENS WITH THE DRUGS COVERAGE AT AGE 65?

At 65 years of age, the Participant is covered under the provincial health plan of his province of residence for drugs and other products included in this plan's list.

Where allowed by law, he may opt out of his provincial health plan and remain covered under the Extended Health Care benefit of the group benefit plan. If so, the Participant must notify DFS of his choice, in writing, within 31 days of his 65th birthday:

- continue coverage under the group benefit plan and the required premium will be determined by DFS,
- or**
- choose his provincial health care plan. He will then no longer be covered for drugs and other products on his provincial health plan's list. This election is irrevocable.

IMPORTANT: Dependents cannot continue their coverage under the Extended Health Care Benefit unless the Participant remains covered.

TRAVELS ABROAD

The Participant must contact DFS if the duration of the trip is expected to be more than 180 days. Failing to do so can lead to the person travelling not being covered.

ACCESS TO THE POLICY

Upon request to DFS, the Participant may obtain a copy of the policy and, if applicable, his application and his insurability report.

HOW TO FILE A COMPLAINT

GENERAL PROVISIONS

MODIFICATION TO GOVERNMENT PLANS

If DFS's obligations under the policy are increased due to a modification to government plans, the policy continues to apply as if government plans did not change, unless otherwise agreed in writing by the Policyholder and DFS.

APPLICABLE LAWS AND JURISDICTION

Any provision under the policy that is not compliant with applicable laws is presumed void. Even if a provision prohibited by law is included in the policy, all other provisions of the policy will still remain in force.

The policy, its interpretation, execution, application, validity and effects are subject to the applicable Canadian or provincial laws that govern, partially or totally, all of its provisions.

Any dispute resulting from its conclusion, interpretation or execution will be exclusively submitted to the competent court in the Canadian province agreed upon between the parties.

INCONTESTABILITY

If the coverage of a person is in force for a period of 2 years while that person is alive, DFS cannot contest the validity of this coverage based on any written statement given unless it refers to age or is fraudulent. However, if a disability occurs during the first 2 years of coverage, the foregoing does not apply and DFS can cancel or limit all related claims owed.

MISSTATEMENT OF AGE

If the age of any individual has been misstated, any benefits payable are based upon the actual age of the individual at the time of the event that results in a claim. Premium adjustments are made for the full time such coverage is in force.

CURRENCY

All payments under the policy, whether to or by DFS, are made in the lawful currency of Canada.

NUMBER AND GENDER

Where the context clearly requires, words in the singular include the plural and words referring to any one gender include any other gender.

ELIGIBILITY

EMPLOYEE ELIGIBILITY

An Employee is eligible for coverage on the date he meets the following requirements:

Number of hours worked per week	Waiting Period
20 hours	None

DEPENDENT ELIGIBILITY

If an Employee already has a Dependent on the date he is eligible for coverage under the policy, that Dependent is also eligible for coverage on that date.

If an Employee does not have Dependents on the date he is eligible for coverage under the policy, Dependents are eligible for coverage on the date the Employee first acquires a Dependent.

APPLICATION

The policy contains a Beneficiary provision that removes or restricts the right of the Participant to designate persons to whom or for whose amounts are to be payable for some benefits.

COVERAGE APPLICATION

Application for coverage is mandatory for any employee who meets the eligibility requirements.

1) Application within the time limit

An Employee must complete the required application form within 31 days of the date he is eligible.

2) Late application

a) All Benefits other than Dental Care Benefit

If application is not completed within the time limit specified above, the Employee may be required to submit Evidence of Insurability.

b) Dental Care Benefit

If the Employee applies for coverage for himself or his Dependents more than 31 days after the date he is eligible, DFS may limit the amount reimbursed for Eligible Expenses according to the EXCLUSIONS, RESTRICTIONS AND LIMITATIONS provision of the Dental Care Benefit.

Evidence of Insurability

Evidence of Insurability satisfactory to DFS is required for any amount exceeding the Maximum without Evidence of Insurability for these Benefits, if application for coverage is completed within the time limit:

1) Long Term Disability Benefit

2) Basic Life Benefit

Evidence of Insurability satisfactory to DFS is required in any amount of Optional Life Benefit. This applies whether the application for coverage is completed within the time limit or if it is a late application.

EXEMPTION PRIVILEGE

An Employee may decline to be covered under the Extended Health Care Benefit or Dental Care Benefit if that Employee is covered as a Dependent under the policy or another similar group insurance plan. However, if that other plan terminates or the Spouse is no longer a member of an eligible class, the Employee is eligible to apply for coverage. To become covered:

- 1) the Employee must previously have opted out of coverage,
- 2) the Spouse's coverage cannot have been terminated by personal choice, and
- 3) the Employee's written application must be made within 31 days of the date the Spouse loses coverage, otherwise, the Late Application provision applies.

COVERAGE TYPES

The coverage types available under the policy are:

Coverage Types	Covered Persons
Single	Participant only
Family	Participant, Spouse and Children

The Coverage Type does not have to be the same for all benefits.

The Coverage Type can be changed due to a life event. DFS must be notified within 31 days of the event.

A life event is defined as:

- 1) marriage, new common-law spouse, separation or divorce,
- 2) birth or adoption of a Child,
- 3) loss or gain of the Spouse's coverage, for a reason other than personal choice,
- 4) death of a Dependent,
- 5) termination of a Dependent's eligibility because of their age, or
- 6) a Dependent Child returns to school.

BENEFICIARY

DFS will recognize the beneficiary(ies) designated by the Participant under the Employer's group insurance plan immediately prior to the Effective Date of the policy, unless DFS requires beneficiary(ies) to be designated again.

Subject to applicable laws, the Participant may designate or revoke, at any time, one or several beneficiaries. Only the benefits that include a benefit payment in the event of the Participant's death are subject to the designation of beneficiary(ies), and the same designation applies to all these benefits. The rights of a beneficiary who dies before the Participant revert to the latter. In the absence of a designated beneficiary, the amounts payable are paid according to applicable laws.

The amounts payable when a Dependent dies are paid to the Participant, if alive. If the Participant has died, the amounts are paid according to applicable laws.

DFS assumes no responsibility for the validity of any beneficiary designation or revocation.

COMMENCEMENT OF COVERAGE

COMMENCEMENT OF PARTICIPANT COVERAGE

An Employee must be Actively at Work on the date his coverage becomes effective. If he is not Actively at Work on that date, his coverage will start on the first day he is next Actively at Work.

The coverage of any Employee is effective on the date he is eligible, provided application is made within the time limit. However, for late application or for benefits that require Evidence of Insurability, coverage is effective on the date the insurability of the Employee is approved by DFS.

COMMENCEMENT OF DEPENDENT COVERAGE

Coverage for a Dependent is effective on the date the Participant is first eligible for Dependent coverage, provided application is made within the time limit. However, for late application or for benefits that require Evidence of Insurability, coverage is effective on the date the Dependent's insurability is approved by DFS.

If a Participant already has Dependent coverage on the date he acquires a new Dependent, the coverage of that Dependent is effective on the date he becomes a Dependent, except for benefits requiring Evidence of Insurability. However, the Life and Accidental Death and Dismemberment Benefits for a newborn Child are effective from birth, if born alive, subject to all other terms and conditions of the policy provisions, including those above.

If a Dependent (other than a newborn Child) is confined to a Hospital on the date his coverage would otherwise become effective, his coverage begins on the day immediately following his discharge from the Hospital.

CHANGE IN AMOUNT OF COVERAGE AND BENEFIT

Any increase or decrease in the amount of coverage or any change in Benefit is effective on the later of the following dates, provided the Participant is Actively at Work on that date:

- 1) the date the Participant is first eligible for the change provided written request is received by DFS on or before that date, or
- 2) the date the insurability of the Covered Person is approved by DFS:
 - a) if the new amount of coverage exceeds the Maximum without Evidence of Insurability, or
 - b) if the request for change is received more than 31 days after the date of his eligibility for the change.

Any increase in the Maximum without Evidence of Insurability does not apply to a Covered Person who was previously declined for an amount in excess of the Maximum without Evidence of Insurability.

If a Participant is not Actively at Work on the date his coverage should change, then the change is effective on the first day he is next Actively at Work. However, if the Policyholder and DFS agree, the change is effective as if the Participant was Actively at Work.

CONTINUATION OF COVERAGE DURING ABSENCE FROM WORK

If a Participant is not Actively at Work for any of the reasons described below, his coverage may be continued, according to the following provisions.

ILLNESS OR INJURY

All benefits that are in place immediately before the absence are continued during an absence due to Illness or injury that results in disability recognized by DFS. Premiums must continue to be paid unless the Participant is eligible for a premium waiver.

TEMPORARY LAY-OFF OR UNPAID LEAVE OF ABSENCE

The Participant is allowed to keep all benefits that are in place immediately before the absence, except for the Short Term and Long Term Disability Benefits. Benefits can be continued for any predetermined period as long as premiums continue to be paid. However, the coverage can only be continued for a maximum of 6 months. DFS must be advised of the scheduled return to work date prior to the start of the absence.

If the Participant decides not to keep his benefits, those benefits are reinstated, without Evidence of Insurability, on the date the Participant is again Actively at Work. DFS must be advised within 31 days following the return to work of the Participant otherwise, Evidence of Insurability is required.

MATERNITY, PARENTAL OR FAMILY RELATED ABSENCES AND LEAVES

For an absence or leave taken according to any applicable law, a Participant may:

- 1) as long as premiums continue to be remitted, keep:
 - a) all benefits, or
 - b) all benefits except for the Short Term and Long Term Disability Benefits,
- 2) discontinue all benefits.

Benefits may be continued for a maximum of 12 months or longer where required by law. DFS must be advised of the scheduled return to work date no later than 31 days following the start of the absence or leave.

DFS must be advised of the Participant's choice prior to the start of the absence or leave. If benefits are discontinued, they are reinstated without Evidence of Insurability, on the date the Participant is again Actively at Work. DFS must be advised within 31 days following the return to work otherwise, Evidence of Insurability is required.

STRIKE OR LOCK-OUT

Coverage terminates on the date the strike or lock-out begins.

- 5) if the Covered Person refuses to disclose to DFS necessary information regarding other insurance plans under which he also has travel coverage or if he refuses the use of the information by DFS,
- 6) if the expenses incurred are related to a health condition that is not Stable prior to the Trip departure date,
- 7) if a Physician advised the Covered Person not to travel,

- 8) for expenses resulting from a pregnancy, miscarriage, delivery or related complications, if these expenses are incurred after the first 32 weeks of pregnancy,

- 2) is under Continuing Medical Care of a Physician in Canada,

DFS pays benefits according to policy provisions.

Elimination Period

- Nil in case of Accident
- 7 calendar working days in case of Illness

Maximum Benefit Period

16 weeks

Taxability Status

ELIMINATION PERIOD

The Elimination Period is the period of continuous Total Disability that must be completed before disability benefits may be paid. It terminates on the later of:

- 1) the date the Elimination Period shown in the Summary of Benefits is completed, or
- 2) the date the Participant consults a Physician.

To qualify for the Elimination Period for an Accident, the Accident must be confirmed by a Physician and sustained not more than 30 days prior to the initial date of Total Disability. Failure to do so means that the Elimination Period for Illness applies.

If Total Disability begins during an absence from work, the Elimination Period begins:

- 1) on the first day of Total Disability, in case of a Parental or Family Related Leave or the "voluntary leave portion" of a Maternity Leave, or
- 2) on the date the Participant is scheduled to return to work for any other absence or leave,

provided the Participant can and does continue his coverage under this Benefit throughout the leave.

BENEFIT PAYMENT

Benefits are payable each week, starting on the date the Elimination Period ends.

Benefits are payable during the "health related portion" of a Maternity Leave. The maternity benefits payable under any public or private plan are deducted from the benefits payable for this period.

In case of a Total Disability that begins during an absence from work for a Maternity, Parental or Family Related Leave, benefits are payable on the later of:

- 1) the end of the Elimination Period, or
- 2) the scheduled return to work date.

Benefits are paid for as long as the Participant remains Totally Disabled, up to the Maximum Benefit Period.

Benefits are based on the Earnings immediately prior to the initial date of Total Disability.

Any payments for a period of less than one week are at the daily rate of 1/7 of the weekly benefit.

RECURRENT DISABILITY

If benefits were paid under this Benefit and the Participant becomes Totally Disabled again, that period of disability is considered a recurrence of the previous Total Disability if the Participant is Actively at Work between the occurrences for less than 2 consecutive weeks if Total Disability is for the same or related cause.

Successive periods of Total Disability due to entirely unrelated cause are considered recurrent unless the Participant is Actively at Work for one day.

The Elimination Period only needs to be served once if Total Disability is a Recurrent Disability.

REHABILITATION

At any time, DFS may require a Totally Disabled Participant to take part in a rehabilitative program satisfactory to DFS. The activities of the rehabilitative program must be approved by DFS.

The Participant will no longer be eligible for benefit payments under this Benefit for any period while he:

- 1) refuses to participate in a rehabilitative program, or
- 2) does not participate actively and in good faith in the rehabilitative program.

REDUCTION OF BENEFITS

1) Direct offset

Benefits payable are reduced by any:

- a) amount that the Participant is eligible to receive under any Workers' Compensation Act or similar legislation,
- b) benefits the Participant is eligible to receive under the Canada Pension Plan or the Quebec Pension Plan excluding amounts payable on behalf of Dependents or any survivor's benefits,
- c) salary loss replacement paid under any provincial government no-fault automobile insurance plan that does not include Employment Insurance benefits in its payments,
- d) salary loss replacement paid under any other federal or provincial legislation if considered earnings by Employment Insurance,
- e) severance or wrongful dismissal payments, and
- f) Earnings from the Employer including sick pay.

Cost-of-living increases given after benefits begin are not included in the sources mentioned above.

2) Additional reduction in case of Rehabilitation

If the Participant earns any income as part of a rehabilitative program, the benefits payable by DFS are reduced by the following formula:

$$(A \div B) \times C = \text{amount of reduction}$$

A = income earned from any rehabilitative program

B = Earnings of the Participant immediately prior to initial date of Total Disability

C = benefits otherwise payable under this Benefit.

While the Participant is taking part in a rehabilitative program, benefits are reduced so that his total income from all sources does not exceed 100% of his weekly gross Earnings immediately prior to the initial date of Total Disability.

The total income from all sources includes any of the following that the Participant receives or is eligible to receive:

- a) any amounts payable under this Benefit,
- b) any Earnings from the Employer,
- c) any benefits the Participant is eligible to receive under the Canada Pension Plan or the Quebec Pension Plan, excluding benefits payable on behalf of his Dependents or any survivor's benefits,
- d) any disability benefits the Participant is eligible to receive under any Workers' Compensation Act or similar legislation,
- e) any amounts payable from a retirement or pension plan provided by the Policyholder, and
- f) any salary loss payments under any provincial government no-fault automobile insurance plan that does not include Employment Insurance benefits in its payments.

Cost-of-living increases given after benefits begin are not included in total income from all sources.

3) Amount payable under public plans

The Participant is required to apply for all benefits available to him under any of the above plans or legislations. If he fails to apply, DFS may estimate the income that is otherwise payable under any government plan. The Participant's benefits are reduced by this estimated amount. Any adjustments are made once the notice of the actual award is received.

If the Participant receives a lump-sum payment from any of the sources above, that payment is converted to an equivalent weekly amount and reduced from the Participant's benefit payments.

LIMITATIONS AND EXCLUSIONS

Limitations

No benefits are paid for any period of Total Disability:

- 1) while the Participant is not under Continuing Medical Care for the Illness or Accident causing the Total Disability,
- 2) during a Parental or Family Related Leave, or the "voluntary leave portion" of the Maternity Leave for Total Disability occurring during this period,
- 3) during any absence from work due to a strike, lock-out, Leave of Absence or lay-off, for Total Disability occurring during this period,
- 4) while the Participant is imprisoned due to conviction of an offence,
- 5) if the Participant remains outside Canada for longer than 3 months regardless of the reason, unless:
 - a) DFS gives prior written consent to continue paying benefits during this period, or
 - b) the Participant is outside Canada for medical treatment that is eligible under the Employment Insurance Act,
- 6) while the Participant engages in any gainful occupation. This does not include rehabilitative program approved by DFS,
- 7) for which the Participant is required to provide satisfactory proof of continued Total Disability or to undergo a medical examination at the request of DFS, but neglected or refused to do so, and
- 8) while the Participant refuses to take part or participate in a rehabilitative program considered appropriate by DFS.

Exclusions

No benefits are payable for Total Disability resulting directly from any one of the following causes:

- 3) surgery for cosmetic purposes, unless it is required as a result of an Accident or an Illness,

 - b) receiving Continuing Medical Care or treatment for rehabilitation.

TERMINATION OF BENEFIT PAYMENTS

Benefit payments end on the earliest of the date:

- 1) the Participant is no longer Totally Disabled,
- 2) benefits have been paid up to the Maximum Benefit Period for any one episode of Total Disability,
- 3) this Benefit terminates. If a Participant is Totally Disabled prior to attaining the age this Benefit terminates and on attaining it, he is still so disabled and has not yet received 15 weeks of benefit payments for that disability, coverage will be extended to the earliest of the date:
 - a) 15 weeks of benefits have been paid,
 - b) he is no longer Totally Disabled, or
 - c) he retires.

provided the Participant can and does continue his coverage under this Benefit throughout the leave.

BENEFIT PAYMENT

Benefits are payable each month, starting on the date the Elimination Period ends.

Benefits are payable during the "health related portion" of a Maternity Leave.

In case of a Total Disability that begins during an absence from work for a Maternity, Parental or Family Related Leave, benefits are payable on the later of:

- 1) the end of the Elimination Period, or

Benefits are based on the Earnings immediately prior to the initial date of Total Disability.

Any payments for a period of less than one month are at the daily rate of 1/30th of the monthly benefit.

RECURRENT DISABILITY

Successive periods of Total Disability are considered recurrent if the Participant is Actively at Work between occurrences for:

- 1) less than 2 consecutive weeks during the Elimination Period, if due to the same or related cause, or
- 2) less than 6 consecutive months after the end of Long Term Disability benefits.

Successive periods of Total Disability due to entirely unrelated cause are considered recurrent unless the Participant is Actively at Work for one day.

The Elimination Period only needs to be served once if Total Disability is a Recurrent Disability.

REHABILITATION

At any time, DFS may require a Totally Disabled Participant to take part in a rehabilitative program satisfactory to DFS. The activities of the rehabilitative program must be approved by DFS.

The Participant will no longer be eligible for benefit payments under this Benefit for any period while he:

- 1) refuses to participate in a rehabilitative program, or
- 2) does not participate actively and in good faith in the rehabilitative program.

REDUCTION OF BENEFITS

1) Direct Offset

Benefits payable are reduced by any:

- a) amounts that the Participant is eligible to receive under any Workers' Compensation Act or similar legislation,
- b) benefits the Participant is eligible to receive under the Canada Pension Plan or the Quebec Pension Plan excluding amounts payable on behalf of Dependents or any survivor's benefits,

Cost-of-living increases given after benefits begin are not included in the sources mentioned above.

2) Indirect Offset

Benefits are further reduced so that the Participant's total income from all sources does not exceed 85% of the monthly gross Earnings in effect immediately prior to the initial date of Total Disability.

The Participant's total income from all sources includes any of the following that the Participant receives or is eligible to receive:

- a) any amounts payable under this Benefit,
- b) any amounts that the Participant is eligible to receive under any Workers' Compensation Act or similar legislation,
- c) any benefits the Participant is eligible to receive under the Canada Pension Plan or the Quebec Pension Plan excluding amounts payable on behalf of Dependents or any survivor's benefits,
- d) any salary loss replacement paid under any provincial government no fault automobile insurance plan that does not include Employment Insurance benefits in its payments,

- f) any disability benefits payable under any employer group insurance plan,
- g) any severance or wrongful dismissal payments, and
- h) any Earnings from the Employer including sick pay.

Cost-of-living increases given after benefits begin are not included in total income from all sources.

3) Additional reduction in case of Rehabilitation

If the Participant earns any income while taking part in a rehabilitative program, the benefits payable by DFS are reduced by the following formula:

$$(A \div B) \times C = \text{amount of reduction}$$

A = Income earned from any rehabilitative program

B = Earnings of the Participant immediately prior to initial date of Total Disability

C = benefits otherwise payable under this Benefit.

While the Participant is taking part in a rehabilitative program, benefits are reduced so that his total income from all sources does not exceed 100% of his monthly gross Earnings immediately prior to the initial date of Total Disability.

Cost-of-living increases given after benefits begin are not included in total income from all sources.

4) Amount payable under public plans

The Participant is required to apply for all benefits available to him under any of the above plans or legislations. If he fails to apply, DFS may estimate the income that is otherwise payable under any government plan. The Participant's benefits are reduced by this estimated amount. Any adjustments are made once the notice of the actual award is received.

If the Participant receives a lump-sum payment from any of the sources above, the payment is reduced by the lesser of:

- a) the lump-sum payment converted to an equivalent monthly amount over a period of 60 months, or
- b) the number of months of disability that the lump sum is paid for.

LIMITATIONS AND EXCLUSIONS

Limitations
No benefits are payable for any period of Total Disability: 1) while the Participant is not under Continuing Medical Care for the Illness or Accident causing the Total Disability, 2) during a Parental or Family Related Leave, or the "voluntary leave portion" of the Maternity Leave for Total Disability occurring during this period, 3) during any absence from work due to a strike, lock-out, Leave of Absence or lay-off, for Total Disability occurring during this period, 4) while the Participant is imprisoned due to conviction of an offence, 5) if the Participant remains outside Canada for longer than 3 months regardless of the reason, unless: a) DFS gives prior written consent to continue paying benefits during this period, or b) the Participant is outside Canada for medical treatment that is eligible under the Employment Insurance Act,

- 6) while the Participant engages in any gainful occupation. This does not include rehabilitative program approved by DFS,
- 7) for which the Participant is required to provide satisfactory proof of continued Total Disability or to undergo a medical examination at the request of DFS, but neglected or refused to do so,
- 8) while the Participant refuses to take part or participate in a rehabilitative program considered appropriate by DFS, and,
- 9) while benefits are paid under the Employment Insurance Act, other than those paid during the "health related portion" of the Maternity leave.

Pre-existing condition exclusion

No benefits are payable for any Total Disability that:

- 1) began during the first 12 months of the Participant's coverage, and
- 2) was, directly or indirectly, the result of a condition or symptoms, whether diagnosed or not, and for which, during the 3-month period immediately prior to the effective date of coverage:
 - a) the Participant is treated by a Physician, or
 - b) prescribed drugs are taken.

If the policy has been in force for less than 12 months, the 12-month period includes any period that the Participant is covered under a comparable benefit under the Employer's prior group insurance policy in effect immediately prior to the Effective Date of the policy.

Other exclusions

No benefits are payable for Total Disability resulting directly from any one of the following causes:

- 1) war, whether declared or not, or service in the armed forces of any country, or participation in a riot, insurrection or civil commotion,
